This process is used to validate and add the digital signature to the digital document in PDF, when it is first created. Documents are unchangeable, unless you have the recovery materials or the source document. Contract Vanzare Cumparare Auto Germania – how to find the original one. In this book pdf, if you have a chance to find the original one, you can look at the footer of the document to find the information. The table below shows the information of the footer about the digital signature. This is the information we have in the table below. You should look at it carefully, because the information of the original document should be included in it. DOCTYPE This is a legal declaration for the document to be official, but if you want to make a fake signature or an arbitrary PDF, you should remove it. To remove the DOCTYPE from the signature, you have to reset the values by Scan and set the value to 0. NotDeclared This value is a digital signature for the signature elements, which are not displayed on the paper. So it is equivalent to the paper signature. DigitalSignature This value is a digital signature for the signature elements displayed on the paper. PS-* If the document has a digital signature, it does not have any information. It is regarded as a value that is not displayed on the paper. The value is shown on the document page. OriginalDocumentName The name of the original document. Signature This value is the digital signature for the original document. Creator This value is the name of the document creator. CreatorTool This value is the type of a signature tool used to create the signature. The value is displayed in the upper right corner of the document. It indicates the type of the signature tool. CreatorReset This value is an optional value for resetting the values of the creator. CreationDate This value is the date and time when the document was created. CreationVersion This value is a version of the document. The value indicates the previous version of the document. CreationDateUtc This value is the UTC conversion time of the CreationDate. Creation
